- Please note that most of the projects funded are construction and purchase of equipment, and thus the beneficiaries will be on-going for several years. In the table above only 1 year's beneficiaries are counted. The norm on average is 7-10 years use for constructions in under-developed countries and 5-7 for equipment.
- The number of beneficiaries mentioned is the estimate made by the charities at the time of their request for funding. The actual number, reported on completion of the project may differ slightly from their first estimate.
